

ALERT TO TRAVEL SURVEY FIELDWORKERS IN YOUR NEIGHBOURHOOD

Umtha Consultancy has been contracted by the City of Cape Town to conduct a Household Travel Survey, Trip Diary Survey, and Stated Preference Survey for Cape Town and Surrounding Towns.

This is a city-wide survey (including the surrounding towns), and we will be conducting interviews in areas and individual households that have been selected in the random, systematic sampling process.

Before we commence with the rollout of the full survey, a pilot sample needs to be conducted to test the questionnaires and data collection conditions.

The fieldworkers will be identifiable by the Umtha name tags.

The target area within your ward for the pilot is **Sea Point**, with a total of **35** surveys for the Household Travel Survey (HTS) and Trip Diary (TD) Survey. The pilot survey will be conducted on the 11th of September 2019 from 14:00 – 19:00. The reason for this time slot is that the survey is targeting household members working outside the house and as well as families and students.

We would be grateful if you could assist us by informing the relevant community stakeholders in the area of the survey. If there is a WhatsApp group that is used by the community for communication please share this information on that platform too.

Find below the details of the Project Manager from the City of Cape Town for confirmation.
